About Us

Customer Testimonials

"The event was SEAMLESS (I've never left an event thinking "wow, nothing went wrong", this was the common feedback from the guests too; being part of a very large family we attend many functions (what feels like every weekend) at many reputable venues and this was by far my favourite and most impressive, many guests took the time to come up to me to also let me know how impressed they were with the look of the venue, the outdoor area for the kids, the food and service."

-Marijana Bosnjak

"Had my baby's first birthday here and also got married here. The event coordinator was very helpful throughout the entire planning process. She would respond to my many many emails very quickly and she was easy to talk to. Venue looked beautiful and they were very accommodating to my various requests."

-Willyna Duong

"There was no drama no issues at all from the beginning till the end of the party. Everyone was happy and giving out the positive feedbacks about the venue, the staff, the foods and the service they provided on Sunday. Me and my husband felt grateful for everything you guys have done. Thank you so much for making my daughters birthday super special. We will book with you guys again in the coming future. "
